A Touchstone Energy[®] Cooperative

Your cooperative is a proud member of these fine organizations

Unclaimed Capital Credits

One of the benefits of being a member of your electric cooperative is that you are also an owner. Your ownership is reflected in any excess margins the cooperative might have at the end of the year, above and beyond the cost of providing electricity to you.

These excess margins are tracked through what we call "capital credits." Each member of the cooperative is allocated their share of capital credits or excess margins based on their patronage provided to the cooperative each operating year.

These capital credits are held as equity in the cooperative and provide financial stability to the company for many years in the future.

Each year the board of directors reviews the financial position of the cooperative and makes a decision whether or not to "retire" capital credits back to the membership.

When capital credits are retired, they are sent back to the member in the form of a check. It's Wyrulec's goal to

retire 5% of the outstanding margins or capital credits back to the membership each year on a FIFO (first in - first out) basis.

The accounting term "FIFO" means that the members who first provided the equity to the company will be the first ones to get their equity back.

Each year during the capital credit retirement process we find that some portion of the contact information for those who are to receive a capital credit check is not valid anymore; leaving the company no way to contact them to return their portion of the equity.

The following is a list of past or present Wyrulec members who have an unclaimed Capital Credit balance.

We appreciate your help in returning these margins to the contributing patrons or rightful heirs.

Should you find your name listed or can provide helpful information in regard to the unclaimed credits, please call us toll free at (800) 628-5266 or visit the Wyrulec office.
